## Corona Checklist

Dear teachers,

Please, take care of the following rules listed below. We want you and your students to have a winter-holiday, as nice as every other year. This can only succeed if we take care of some rules during your stay:

### For students:

- ✓ Please wash your hands regularly, preferable with soap and warm water. In the hotel you also find dispensers to disinfect your hands (buffet & reception).
- ✓ We ask you to keep a safe distance! Within your own party this isn't obligatory. However, we ask all students to act in a responsible way.
- ✓ Visiting other rooms in the hotel isn't allowed.
- ✓ In Oberwimm, a mask is not obligatory. – However, if you should feel more comfortable, please feel free to wear one! We suggest to wear something colorful, in that way, the atmosphere in our hotel stays friendly, and we don't get the feeling of being in a hospital. A mask is only obligatory for shopping, visiting a doctor, hospital or pharmacy.

### During your stay:

- ✓ Due to safety-regulations, the check-in is organised outside, and in such way, that keys are handed over per room.
- ✓ Toilets, rooms, reception, dining-rooms and all other hotel facilities are cleaned and disinfected daily by our cleaning-staff.
- ✓ We provide additional cleaning-gel for the teachers, if needed. In that case, please report the reception.
- ✓ Visiting other rooms is NOT allowed.
- ✓ During the meals, every party becomes his own dining-room, during the whole week. The meal-times are organised in such way, that every party is served separately. In the dining area, we kindly ask to respect the distance rules as mentioned above.
- ✓ In the dining-area, we kindly ask to follow the blue arrows on the floor.
- ✓ We like to remind you that we are convinced that all participants act in a responsible way, and are travelling free of flue and are healthy. If you should have had contact with a sick person with symptoms of flue or symptoms of Covid19, we kindly ask not to travel abroad.

## **In case of suspicion of COVID19:**

- ✓ Please keep calm and act in a calm way! We don't want all other students to feel unsure, and we want to avoid that parents are informed faster than the health-services and the school-staff. Keep in mind that it is still a suspicion!
- ✓ The suspicious person needs to be accommodated in a separate room.
- ✓ The Oberwimm-staff needs to be informed as soon as possible, with all details needed (Name, parents telephone number, symptoms, etc...).
- ✓ The Oberwimm-staff and the Oberwimm-Covid responsible inform the health authorities. Those determine all further steps required.
- ✓ All further procedures, tests and measures are prescribed by the local health authorities.
- ✓ The teaching-staff provides those authorities the list of persons with whom the suspect had contact, and in which way.
- ✓ The Oberwimm-Covid responsible communicates all measures and procedures taken by the health authorities to the teacher-staff.
- ✓ If a suspicious person gets the confirmation of Covid19, further measures must be taken by the hotel. Those will be communicated by health authorities.

## **Complying with the measures:**

All measures mentioned above need to be followed strictly, and at any time. If a student should commit a violation on those rules, we expect the teacher-staff to point out on his mistake in a pedagogical way.

We are very pleased to welcome your school in this winter, and are sure that we will give them a stay full of good memories!!

If you should have further questions, feel free to contact us, from Monday till Friday, from 9 am till 4 pm.
